Publication of the Agreement on SEMARNAT's Environmental Electronic Window

On January 8, 2025, the **Agreement establishing the creation and operation of the Environmental Electronic Window (VEA)** was published in the Official Gazette of the Federation (DOF). This digital platform, managed by the Ministry of Environment and Natural Resources (SEMARNAT), aims to streamline environmental management processes.

The VEA allows individuals and entities to submit procedures digitally, available 24/7, throughout the year. The platform's primary objectives include:

- **Administrative Simplification:** Facilitates the management of procedures and reduces users' administrative burden.
- **Transparency and Accountability:** Ensures traceability of procedures, combating corruption.
- **Sustainability:** Promotes a fully digital SEMARNAT, eliminating paper use.

The platform is grounded in **Article 4 of the Constitution**, which guarantees the right to a healthy environment, and **Article 84 of the General Law on Regulatory Improvement**, which allows the simplification of procedures through agreements published in the DOF.

Registration on the VEA

To register, users must access [this link](#) and provide the following:

- » Address.
- » Phone number.
- » Email address.

Access can be completed through one of three methods:

- a) Using the e.firma (electronic signature).
- b) CURP and password.
- c) Other digital identification tools implemented by the Federal Government.

Operation of the VEA

SEMARNAT is responsible for receiving and resolving procedures submitted through the VEA. Users can access electronic notifications and their digital files through the **Environmental Inbox** subsystem.

The implementation of the VEA marks a significant step toward modernizing and improving the efficiency of environmental management in Mexico.
